

# PUBLICATION SUBSCRIPTION INFORMATION

As an agricultural exporter, you need timely; reliable information on changing consumer preferences, unique needs of foreign buyers, and the supply and demand situation in countries around the world. The Foreign Agricultural Service provides that information in its commodity publications.

In an effort to be more responsive to our customers, the U.S. Department of Agriculture's Foreign Agricultural Service (FAS) has teamed up with the National Technical Information Service (NTIS) to handle publications sales and subscriptions. **All sales and subscriptions for FAS publications will be handled solely by NTIS.** This sales effort has many advantages for our customers. You will be able to:

- Pay by check, money order, purchase authorization or credit card
- Order subscriptions or individual issues by fax or phone.
- Choose delivery methods (i.e., express delivery and order in bulk for multiple copies.)
